Alano Terblanche

Monash Graduate

Johannesburg Area, South Africa

Summary

Completed my Degree in Computer and Information Sciences at Monash South Africa.

Passionate about software development and Linux. Currently working on projects to expand my experience and establish my own company in the future.

Experience

Deeplink Studios

Database Developer

November 2016 - October 2017 (1 year)

Johannesburg Area, South Africa

I did Database design and development. Also had to write SQL functions for the c# server to use.

Monash University

Java Peer Tutor

February 2017 - June 2017 (5 months)

Java (Introduction to Programming) Tutor for Monash South Africa.

It entailed presenting tutorials and labs, marking some course material and assisting in any questions students had regarding the subject.

GRIT PROCUREMENT SOLUTIONS

Technical Support

January 2016 - February 2016 (2 months)

Pretoria Area, South Africa

I worked here during my summer vacation, doing work as a technical assistant. I helped set up emails and any software required on computers in office as well as remotely. I also helped with any loose work that had to be done, such as lay LAN cables or setup wifi access points.

Impact Tech

Self Employed

January 2013 - January 2016 (3 years 1 month)

Selling computer parts, also fixing and building computers.

The Professionals

Technical Support Specialist

January 2015 - January 2015 (1 month)

Radio Pretoria

Worked a summer job here as technical support. There I repaired computers as well as upgraded systems. I also installed networks and assisted employees of Radio Pretoria in any technical difficulties they had.
